SUMMARY

Full-stack Web-Developer with excellent organisational skills, self-reliant and independent with strong critical and logical thinking as showcased through progress in a bachelor's degree in mathematics. With a certificate in full-stack web development and experience in collaborative projects, there are multiple roles that suit my qualifications. The utilisation of personal attributes such as ambition and creativity alongside good critical and logical thinking ensure engagement and quality as a Full-stack web developer.

TECHNICAL SKILLS

Languages: JavaScript, CSS, REACT, HTML, CSS, | Databases: MySQL, MongoDB | Tools: Git & Heroku

PROJECTS

Catch Source Style Jan. 2021 - Feb. 2021

Group Project | <https://github.com/bencyna/Catch-Source-Style> | <https://bencyna.github.io/Catch-Source-Style/>

- Developed a responsive mobile-first app that allows users to upload images and view fonts, can interact with and save to local storage.
- Using external APIs to generate information in JavaScript. Use of HTML, CSS and CSS framework output to display the correct items.
